Introduction

1. Premier Compaction Systems (PCS) is currently providing expert service for all phases of the waste & recycling equipment industry in the tri-state area. PCS has on staff repair experts, preventative maintenance specialist, metal fabricators, installation and design engineers.

PCS application engineers develop a design and installation plan with on-site supervisors that reduces budgetary costs in installation, as well as future repairs and maintenance.

2. PCS has the ability to provide prompt service and repairs that do not require a second and sometimes third visit. **Saving our clients thousands in avoided future repair costs.**
3. PCS will visit your facility at **NO CHARGE** to evaluate the current condition of your equipment and make a custom solution for you. We maintain a client base of **over 500 satisfied customers**, reference requests are welcome.

The PCS staff looks forward to service your next maintenance, problem, or upgrade and provide a quote for future installations.

Chute & Compactor Cleaning & De-Odorizing

We wash and maintain chutes, containers, & compactors so that they work as intended.

Clean, deodorized chutes will help:

- Keep tenants happy, apartments full
- Remove grease build-up and potential fire hazards
- Lengthen chute and chute door life
- Reduce trash room odors
- Reduce likelihood of attracting pests and rodents
- Reduce chances of black mold
- Reduce vermin and pest problems
