Capabilites

PFM provides programs that track and monitor excess inventory of packaged, raw and finished goods. We have developed material/product-tracking systems that ensure the destruction of the products, using the most sustainable and accountable methods.

Waste generators can potentially reduce or eliminate their status as "large-quantity generators" by exploring recycling and waste-to-energy markets. Compliance with all regulatory agencies maintains foremost conformity.

SPECIALIZED SERVICES:

- ▶ Computer Tracking – Cradle-to-Grave
- ▶ Cosmetic Product Incineration – Waste-to-Energy
- ▶ Alcohol Fuel Blending – ATF Facilities
- ▶ Bulk and Liquid Waste – Solidification
- ▶ Certified Landfill Burial – Available upon request
- ▶ Destruction Process Photos
- ▶ GPS Tracking Available
- ▶ Obsolete Product – Bulk or Finished
- ▶ Componentry
- ▶ Packaging
- ▶ Certified Destruction
- ▶ Environmentally Sustained Programs
- ▶ Recycling and Marketing
- ▶ Small Quantity Service
- ▶ Highest Level of Secured Destruction
- ▶ Shredding

MAJOR MARKETS:

Personal Care Products, Cosmetics, Fragrances, Industrial Chemicals, Hard Goods, Furniture, Consumer Products, Etc.

PROGRAMS:

- ▶ Packaging Material Destruction/Recycling
- ▶ Certificate-of-Destruction Compliance
- ▶ Hard-to-Handle Material Markets
- ▶ Ethanol Recycling and On-site Distillation
- ▶ Complete Tracking and Control of all By-products and Non-marketable Products
- ▶ Complete Paper Trail to Facilitate the Process
- ▶ Plastic • Glass • Bulk • Raws
- ▶ BUD – Beneficial Use Determination Programs Available
