Premier Facility Management (PFM) is a leader in sustainable green programs. PFM programs are designed to meet the needs of today's industry with specialized services that offer economical alternatives:

- Turn Key Sustainability Programs
- Customize Waste Equipment Design, Installation, Maintenance
- Facility Source Separation Programs
- Obsolete Inventory Control
- Environmental Compliance Program
- Sensitive Product Green Destruction
- USGBC LEED Project Reporting
- Sustainable Waste Audit Site Survey
- Supply Chain – OEM Support System
- Beneficial Use (BUD) - By-Product Recycling

PFM can customize and design innovative solutions to meet today's market demand and keep-it-green. The PFM data base of sustainable by-product markets and global outlets for recyclables is the base of our sustainable platform. Premier maintains a highly reputable track record of donating re-usable items to charity organizations since 1987. Premier employs a full staff of application engineers that have the experience to design, install, and maintain all waste handling equipment. PFM design compliments the recycling program and maximizes material market value while reducing carbon footprints. Premier Facility Management understands the need for environmentally sound programs that reduce operating costs while increasing bottom line revenue."
